OLEO DE GRANADA RITUAL

Signature Floral Spa Experience – 90 min / 150 EUR

An exclusive ritual centered on Oleo de Granada, a treatment oil created for the spa experience and enriched with floral remedies such as flor de lys. Its silky texture and warm application transform the massage into a deeply sensorial treatment that nourishes the skin and leaves it visibly more luminous.

The ritual opens with a slow arrival into relaxation, followed by the delicate use of Aire de Hadas and the application of warm Oleo de Granada through long enveloping movements across the back, arms and legs. The protocol is designed to release physical tension while creating a lasting sensation of calm.

Craniofacial work, aromatic breathing and floral gestures inspired by the original protocol elevate the treatment into a complete wellbeing experience. The result is comfort, softness and a refined feeling of serenity that remains long after the ritual ends.
